## Non-Surgical Mommy Makeover in Utah

---

### What is a Mommy Makeover?

---

The arrival of a new baby is a joyful event, but the physical changes it brings to mom are often much less welcome. Diet and exercise can help to firm up sagging skin and regain muscle tone, but these are measures which take a while to work and are not necessarily effective for every woman.

For an immediate improvement in appearance and confidence, a “Mommy Makeover” is the answer. We have a range of procedures designed to help women get back in shape after giving birth. Traditionally these makeovers have required significant, complex interventions. **At La Belle Vie we prefer to use modern, non-invasive procedures which are far less stressful and easier for recovery.** We’d love you to call one of our experts at 801-987-8384 and **start planning your individual, personalized mommy makeover in Draper, Utah!** [Schedule a Consultation Button]

***The procedures we recommend vary from client to client, but here are just a few of the choices we offer:***

### Tummy Tuck

---

Fat around the waist is notoriously difficult to shift with diet and exercise alone, but our innovative **CoolSculpting process removes these unwelcome fat deposits quickly, safely, and with a minimum of side-effects.** The process involves the freezing of the targeted area to release stored fat from the cells, followed by a deep massage to help flush it safely from the body. **No anesthesia is required, and results usually show within a**

***few weeks or a couple of months at most.***

For best results, the CoolSculpting process is used in tandem with our **Profound® laser skin-tightening treatment** which is designed to boost the natural elasticity of the skin.

***Both these procedures can also help with butt-lifts and cellulite removal.***

## Vampire Breast Lift

---

This procedure uses a safe combination of hyaluronic fillers and platelet-rich plasma (PRP) to assist the body's natural healing properties in ***renewing and repairing damaged tissue***. The **Vampire Breast Lift** improves the lift and appearance of breasts, nipples, and cleavage without increasing cup size. This treatment typically ***takes less than an hour*** and requires no recovery time. ***Significant improvements are usually visible within a few days.***

## Vaginal Rejuvenation

---

La Belle Vie's unique **Femilift** treatment uses a ***non-invasive laser procedure to restore the lost muscle tone and elasticity*** which is vital for the enjoyment of intimacy. This rejuvenation procedure also helps to ***restore urinary continence and the proper lubrication*** which helps avoid infection.

## Varicose and Spider Vein Removal

---

The increase in the size of the uterus, greater blood volume and hormonal changes in the body can all contribute to the development of vein problems during pregnancy. ***Varicose and spider veins are not normally a significant health issue, but they are unattractive and sometimes painful*** so that having them removed can be a great boost to your sense of well-being.

At La Belle Vie we use either **sclerotherapy, or laser treatment**, or both, to ***remove unsightly veins quickly and painlessly*** at our Draper, Utah office. Treatments may be as brief as 20-30 minutes and no recovery time is necessary. ***Results generally are seen within 6-12 weeks***, but some follow-up procedures may be necessary depending on the individual condition.

## Hair Rejuvenation

---

A woman's hair is said to be her crowning glory, but unfortunately, ***hormonal changes that come with pregnancy often mean some thinning or even loss of hair***. While normal growth and luster is usually regained in time, the process can be significantly accelerated with the use of **Platelet Rich Plasma (PRP) Therapy**. This simple procedure involves injecting the target area with plasma prepared from your blood. This plasma is naturally rich in the factors required to ***stimulate healthy new hair growth***. A topical anesthetic minimizes any minor discomfort and the whole process takes just an hour.

## What is the Cost of a Mommy Makeover?

---
